

CHILDREN'S SUPPORT SERVICE OUTREACH TEAM

Our Mission

We support pupils in mainstream schools, in the South of Essex, who face a diverse range of barriers to education and are at risk of permanent exclusion. Our goal is to re-engage students, enhance their connection to learning and help them to thrive in their school environment. Our purpose is to strengthen the support for mainstream schools in meeting the needs of children and young people with SEND, by developing staff expertise and confidence and ensuring high-quality provision is in place.

What Our Team Offers

What you can expect

In our tailored 12 step plan, we hope to achieve;

- An increased sense of belonging for your student
- An increase in staff confidence in supporting your students' needs
- Improvement in the relationship between staff, student and parents/carers
- An increase in the student's attendance to school and attitude to learning
- A decline in pupil suspensions and negative behaviour.

Our Impact on your students

Our team will support your pupils with:

- Developing emotional regulation skills
- Promoting positive relationships with peers and staff
- Building Resilience and problem solving
- Improving Social skills
- Shaping a more positive attitude to learning

Safeguarding & Child Protection

Our Team are dedicated to ensuring high levels of safeguarding are being upheld and can contribute to safeguarding efforts, guaranteeing pupils safety and wellbeing is a priority.

How we work

Our dedicated team will receive your referral, triage and allocate an engagement mentor.

A meeting will be held to discuss support, identifying challenges and concern, and a programme of weekly sessions will be tailored to address emotional, behavioural and academic need.

Over this period, reviews and observations will take place to ensure our support is having an impact on your student, and you are seeing this take effect.

Our mentors will be a guide to not only the students, but staff and parents will have their input, and guidance will be offered to all.

Our Partnerships

We work collaboratively with all staff from your school, including the SEND team, pastoral support & SLT.

We offer tailored SEND support, along with Trauma Perceived Practice informed guidance and provided Mental Health inspired care.

We collaborate with the Local Authority, Schools Inclusion Partners and the Education Access Team at ECC.

"Be the best you can be"

Values

- Respect
- Resilience
- Aspiration

Beliefs

- All behaviour is communication and something to work with and try to understand.
- All of us are prone to make mistakes.
- Behaviour management is predominantly achieved through relationships.
- Young people who find it hard to cope should be supported and included
- Expectations should be developed together and adapted where needed.
- Consequences used as learning opportunities.
